- ## TIMOTHY MAGEE

  Traits: **meticulous, calm, diplomatic, analytical, information-seeking, and skilled at problem-solving**

  In 2019, I began a brief course in HTML and CSS, which led me to create a WordPress website for four associations, becoming the person in charge of the website. Subsequently, I shifted my focus from social work studies to frontend programming at Change Maker Education in Stockholm. From my studies, I've learned HTML, CSS, JavaScript, TypeScript, React and Git, as well as Express and SQL.

  When you hire me, you'll get a responsible team member who isn't afraid to tackle challenging tasks and is always eager to learn more.
